Experience

Klub Investorů – KI Asset Management — Prague, Czech Republic
Analyst (Equity Research) & Lead Developer — Oct 2024 – Present

- Performed fundamental equity analysis and valuation (DCF, multiples) as the basis for portfolio construction
- Wrote equity analyses via a four-stage process: screening, write-up, peer review, committee vote
- Built financial models in Excel and Python to support investment decisions
- Synthesized complex market data into actionable institutional insights

Noemata s.r.o., Prague – Survey Interviewer — 2024 – 2026
Panská Zahrada, Dobřichovice – Waiter — Summer 2024

Technical Projects

KI Asset Management Platform | Python, Flask, SQL — ki.havliksimon.eu

- Developed platform tracking a live student-managed portfolio vs S&P 500, FTSE All-World, and EEMS
- Built user accounts, automated Yahoo Finance pricing, research publishing, and CSV reporting

Portfolio Optimizer | Python, CVXPY, Plotly — optimizer.havliksimon.eu

- Built portfolio analytics web app: Markowitz optimization, Monte Carlo (5,000 paths), VaR/CVaR
- Added Fama-French 5-factor and PCA analysis, distribution fitting, and stress-test scenarios

simonhavlik.com | UI/UX, front-end, deployment — simonhavlik.com

- Designed and built end to end: UI/UX design, front-end development, deployment, and SEO
